

DATA SHEET

A comprehensive image and information management system that supports the entire cardiology service line

Merge Cardio

Your cardiology department is busy and complex. Every day, your clinicians and staff strive to improve patient outcomes and adhere to rigorous quality measures amidst growing financial constraints, but these conditions can cause a significant strain on your already limited resources – both human and financial.

While no silver bullet can address every challenge, a comprehensive solution like Merge Cardio™ can go a long way, streamlining workflows and creating efficiencies across your service line.

The Merative Advantage

Awarded Best in KLAS for Cardiology 2023, Merge Cardio, Merative's CVIS, can help streamline your workflows, simplify data collection and automate clinical reporting, saving your team precious time and minimizing costly data entry errors. And with all patient data in one easily-accessible location, your clinical team doesn't have to worry about wasting time switching between systems or workstations in order to locate patient information, view images and finalize reports.

Merge Cardio's centralized, web-enabled system, allows you to:

- Access your patients' comprehensive cardiovascular service line from a single point*.
- Leverage a robust imaging and diagnostic workstation that supports most imaging modalities.
- Generate, review and confirm structured clinical reports spanning cardiology specialties.
- Automate reporting workflow, including data pre-population from modality devices directly to the clinical report and EHR.
- Integrate with applications for 3D/4D echocardiography and strain, nuclear medicine, CT angiography, and MRI and ECG.
- Gain an interactive, hierarchical timeline view of your patient's cardiovascular service line, including relevant prior notifications, without switching screens or conducting exhaustive searches.

Merative Cardiology Solution Suite

Merge Cardiology Solutions seamlessly integrate with the industry's largest health information systems and EHRs for interoperable image exchange, a key component of an overall strategy to provide secure and timely access to patient information regardless of location and affiliation.

Merge Cardio™

Access and manage your patients' digital integrated cardiovascular service line from a centralized, web-enabled system that lets you streamline report generation and distribution.

Merge Hemo™

Document the hemodynamic workflow and data collection in your cath lab into a digital patient record using a simplified touch screen interface and automated reporting.

At Merative, we offer a powerful combination of resources, expertise, technology and vision to help your cardiology department thrive.

*Merge Cardio is not FDA-cleared for diagnostic use on mobile devices.

About Merative

Merative is a data, analytics and technology partner for the health industry, including providers, payers, life sciences companies and governments. With trusted technology and human expertise, Merative works with clients to drive real progress. Merative helps clients reassemble information and insights around the people they serve to improve healthcare delivery, decision making and performance. Merative, formerly IBM Watson Health, became a new standalone company as part of Francisco Partners in 2022. Learn more at www.merative.com
