

Eight reasons to trust Micromedex

Clinicians worldwide trust the information from Micromedex® from Merative to help inform the best care for their patients. Here are 8 reasons why.

01

Ranked #1

Micromedex was ranked as Best in KLAS 2023 for clinical decision support: point-of-care clinical reference.

In the KLAS report, 100% of Micromedex users said the solution is part of their long-term plans.

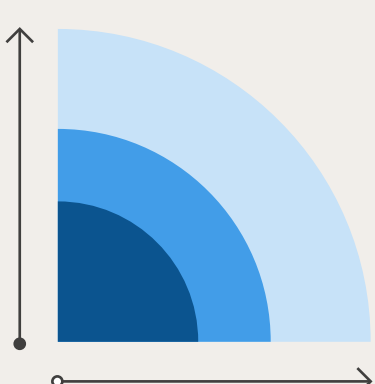

02

Updated every day

Reliable, timely guidance

Micromedex content is reviewed and updated on a daily basis to keep up with ever-changing clinical evidence. Because of the rigorous, NICE-accredited editorial process, users can be confident the content is reliable and current.

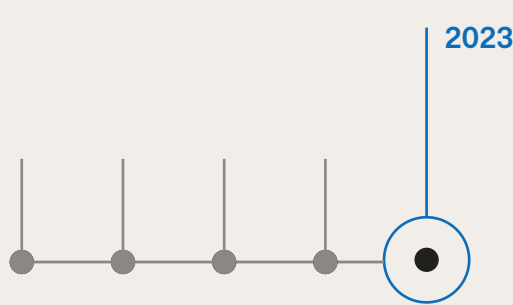

03

50 years of history

Established in 1973 and continually improving

Micromedex has nearly a half century of history as a leading provider of evidence-based, clinical information on medications, toxicology, and patient education.

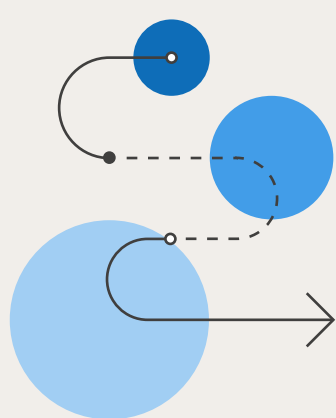

04

3,000 searches per minute

For a total of 350,000 searches a day

Micromedex users search for clinical information concerning on- and off-label drug recommendations, dosing, toxicology, IV compatibility and more. Micromedex also contains NeoFax, the industry standard for neonatal content.

05

15 years' average tenure

An editorial team with deep experience

Micromedex is maintained by rigorously trained clinical pharmacists, nurses, and other health professionals with deep healthcare expertise and long average tenures, so only the highest quality, evidence-based content is included in the solution.

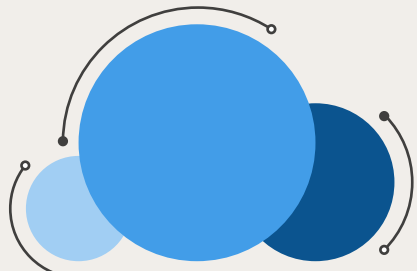

06

3,300+ hospitals

From community hospitals to large health systems

Micromedex is used in all types of healthcare facilities – as well as by pharmaceutical researchers, academic programs, pharmacy benefits managers, claim adjudicators, and more.

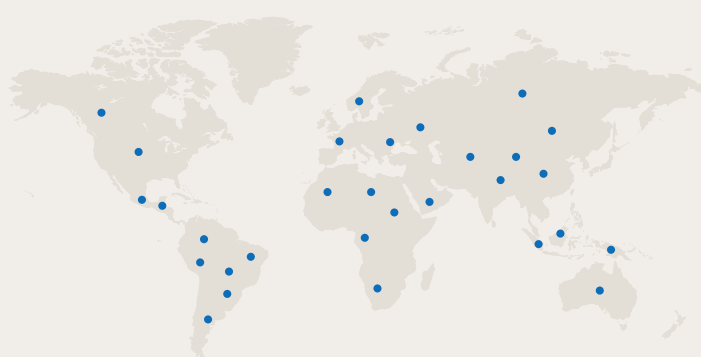

07

70 countries

Trusted by clinicians around the globe

Users in 70 countries rely on Micromedex for universally reliable and relevant information, no matter where they are or what type of healthcare setting they work in.

08

98% of U.S. poison control centers

Tapping into crucial toxicology information – fast

The toxicology content in Micromedex is a source of truth for nearly every poison control center in the U.S. to help them quickly identify, manage, and treat toxicological exposures.
