# Chapter 1. Cúram Income Support for Medical Assistance (Traditional) Program Guide

Cúram Income Support for Medical Assistance enables social program organizations to improve the efficiency and effectiveness of eligibility and entitlement services for medical assistance. Business tools and processes are provided for the effective management of traditional medical assistance programs, plus Affordable Care Act and MAGI-based Medicaid programs.

## Introduction

---

### Purpose

The purpose of this guide is to provide an overview of Cúram Income Support for Medical Assistance. This guide contains details of the rules used to determine eligibility and entitlements for Medical Assistance.

This guide is intended as a reference manual for business analysts, and does not contain any technical information regarding how the rules are run or how to administer the rules. For information on setting up and maintaining rules in the product, see the *Working with Cúram Express Rules*.

### Audience

This guide is intended for anyone interested in learning about the rules used in the Cúram Income Support for Medical Assistance Program. It is expected that it will be read mainly by business analysts working within a social enterprise organization. It is assumed, therefore, that you are familiar with the concepts of Social Enterprise Management (SEM), and understand the organization's business requirements.

### Medical Assistance Introduction

Medical Assistance is a program that pays the medical bills (and in some cases the cost of institutional care) of people who have low income and cannot afford medical care. It is a means-tested program, available only to certain low-income individuals and families who fit into an eligibility group that is recognized by federal and state law.

The Medical Assistance program provides eligibility determination for households based on financial and non-financial factors. The information required to determine program eligibility is captured as evidence. This evidence is assessed against a set of business rules to determine whether or not the household is eligible for Medical Assistance.

### Available Documentation

Supporting documentation relating to Medical Assistance and associated programs can be found in several business guides. For information on Long Term Care including the eligibility rules, see the *Cúram Income Support for Medical Assistance Long Term Care Guide*. Caseworkers may also find the business guides for other Medical Assistance programs useful. For Spend Down, see the *Cúram Income Support for Medical Assistance Spend Down Guide*. For Children's Health Insurance Program, see *Cúram Income Support for Medical Assistance Children's Health Insurance Program Guide*.

Patient Protection and Affordable Care Act mandated changes take effect January 2014. To see information related to that solution, see the *Cúram Health Care Reform Business Guide*.

For information on Long Term Care including the eligibility rules, see the *Cúram Income Support for Medical Assistance Long Term Care Guide*. For Spend Down, see the *Cúram Income Support for Medical Assistance Spend Down Guide*.

## **Medical Assistance Eligibility Rules**

The business rules operate against the evidence recorded in the system.

The business rules for each coverage type are divided into two distinct categories, coverage type eligibility and financial eligibility. These can be further divided into the following:

- Coverage Type Eligibility consisting of:
  - Non financial requirements
  - Coverage type eligibility rules
- Financial Eligibility consisting of:
  - Income rules
  - Resource rules

### **Non Financial Requirements**

The non financial requirements include Citizenship, Residency and Social Security Number. As these rules are common to most Medical Assistance coverage types they are documented in a chapter separate to the coverage type rules. See the *Common Rules - Non Financial Requirements* chapter within this document. Any coverage type specific variations are documented within each coverage type chapter.

### **Coverage Type Eligibility Rules**

The coverage type eligibility rules include rules which:

- Determine the individuals or groups of individuals who may be entitled to assistance. This is known as assistance units within *Cúram Income Support* and *Cúram Medical Assistance*.

The rules for each coverage type determine how the assistance units are formed. In general the household composition rules are used to form the assistance unit and determine the household members that are included in the unit. The household determination rules determine the household members that are excluded from the assistance unit.
- Determine whose income and resources should be considered in the financial eligibility rules. Such household members form the financial units.
- Determine how many people should be considered to be in the household. This is known as the household size. This is required in order to determine what income and resource limits should be used in the financial eligibility rules.
- The dependent child rules determine if a child is considered a dependent child, and is used by many coverage types in the rules for the formation of assistance units. As these rules are common across several coverage types, these rules have been documented in the *Common Rules - Dependent Child* chapter of this guide.

### **Financial Eligibility Rules**

The financial eligibility rules determine:

- Which resources and income are countable, not countable or are excluded.

- How the income and resources should be calculated for each coverage type in the financial eligibility determination. (Including the income deductions that should be applied)

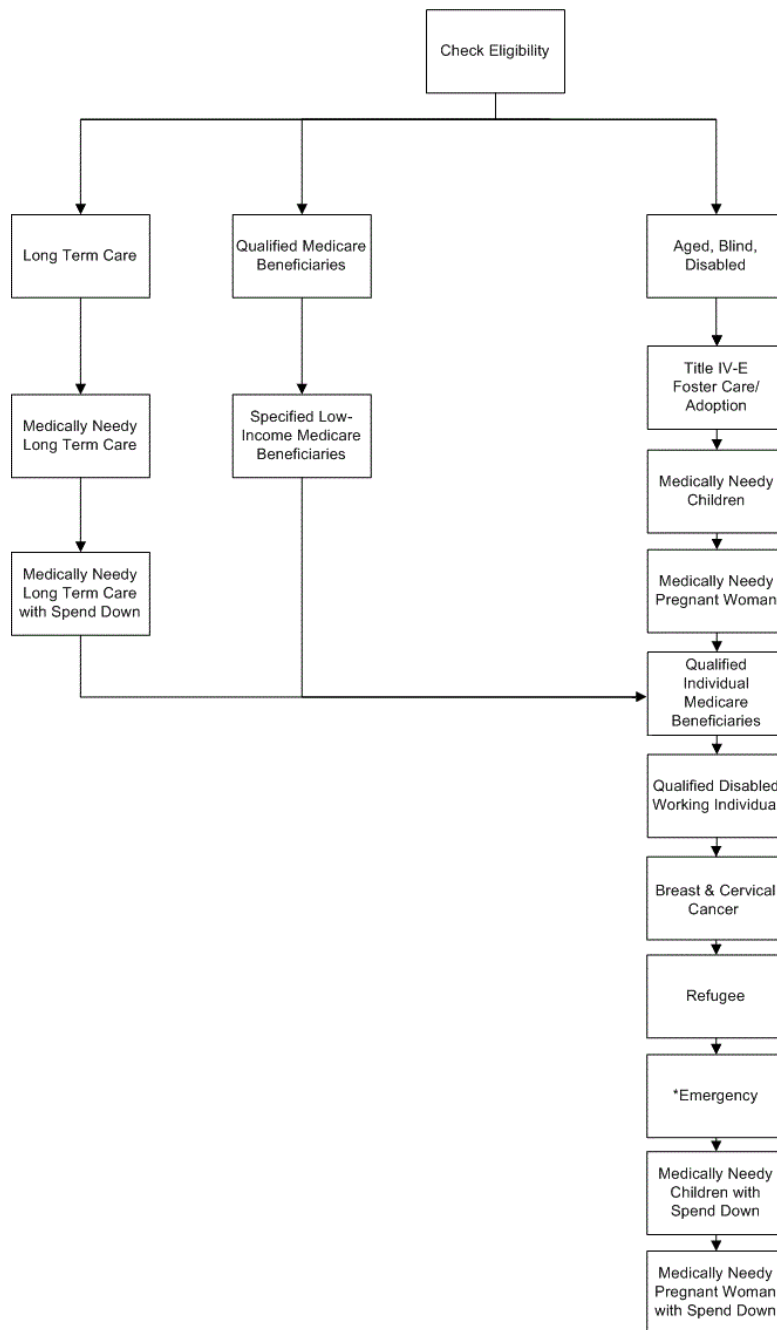

The rules for calculation of income and resources are documented separately for each coverage type.

## **Cascading Eligibility**

The term *cascading eligibility* refers to a process whereby coverage type eligibility is determined based on a hierarchy. The eligibility rule set runs the rules for the coverage type with the highest priority first, followed by the rules for the coverage type of next highest priority.

If a client applies for Medical Assistance, the system checks whether they are eligible for a number of coverage types within the program. If they are eligible for a coverage at the top of the cascade, the lower coverage types are not checked. If the client fails a higher coverage type, the system checks the next coverage type, and keeps checking until the rules find a coverage type that the client passes. The client might fail all coverage types.

As part of the integration with the Affordable Care Act (ACA) programs, the Income Support Medical Assistance cascade was updated. As of Jan. 1, 2014, clients can apply for the new MAGI-based Medicaid and any of the remaining non-Modified Adjusted Gross Income (MAGI) Medicaid coverage types. The cascade varies based on when the application was submitted. For applications submitted before Jan. 1, 2014, the pre-Patient Protection and Affordable Care Act of 2010 (PPACA) hierarchy applies. For 2014 onwards, the new cascade as shown in Figure 1 is applied. If a change of circumstance occurred after Jan. 1, 2014, for an ongoing case, the household might be found eligible for one of the programs in the post-PPACA cascade.

*Figure 1. Post-January 2014 Medical Assistance Cascade*

The following programs were removed from the cascade effective January 1, 2014:

- Low-Income Families and Children (LIFC)
- Children

- Newborn
- Pregnant Woman
- Emergency Low-Income Families and Children (LIFC)
- Emergency Children
- Emergency Newborn
- Emergency Pregnant Woman

**Note:** Eligibility for Children's Health Insurance Program (CHIP) is triggered separate to Medical Assistance, and is not included in the cascade. Eligibility for CHIP requires that individuals are not eligible for Medical Assistance, the rules execution ensures and the program rules for CHIP ensure this determination.

The following figure defines the pre-2014 C?ram Medical Assistance cascade.

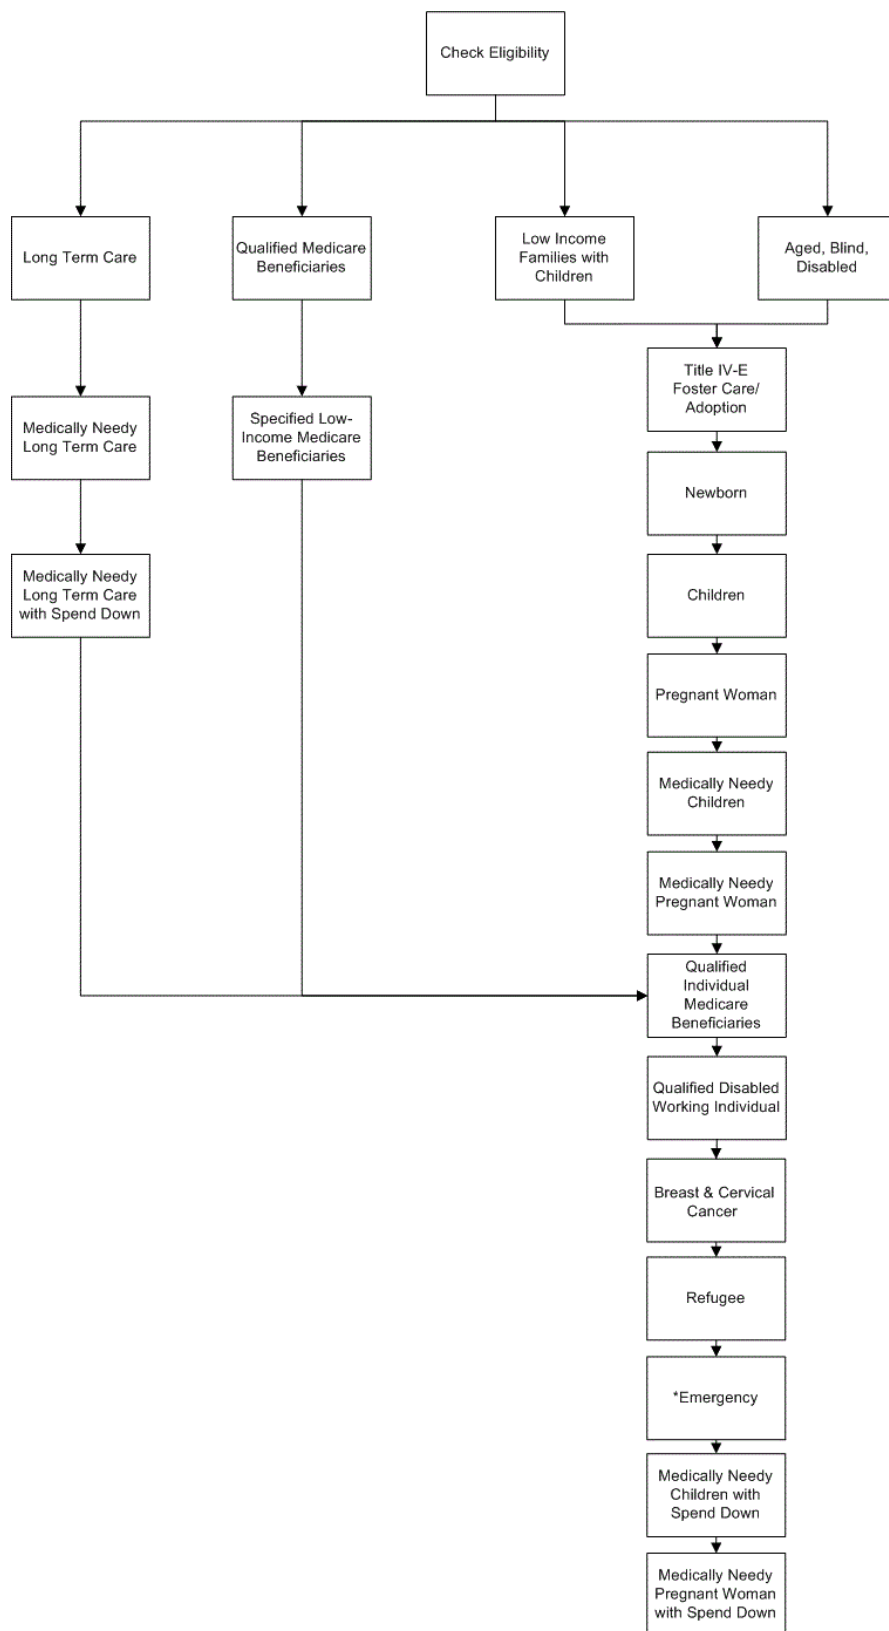

Figure 2. Pre-January 2014 Medical Assistance Cascade

## Emergency

Emergency contains the coverage types that are listed as follows in order within the cascade:

1. Emergency Aged, Blind, and Disabled (ABD) / LIFC\*

2. Emergency Title IV-E Foster Care/Adoption
3. Emergency Newborn\*
4. Emergency Children\*
5. Emergency Pregnant Woman\*
6. Emergency Medically Needy Children

\*Not evaluated by new applications added since January 1, 2014 because these are now in part of a SPM MAGI-based Medicaid application.

## Family - Common Resource Rules

---

### Introduction

Resource rules are used to calculate the household's total countable resources. Total countable resources include resources deemed to the household. This chapter contains the common steps to calculate resources for family coverage groups. Rules that are specific to a coverage type (such as resource limits) are found in the coverage type chapter.

### Total Countable Resources

For every individual in the financial unit whose resources are counted, carry out the following steps:

1. Calculate individual's countable resources AND
2. Add total deemed resources, if any, to the individual's total countable resources to determine the total countable resources (see Resource Deeming below) AND
3. Add individual's countable resources to other household member's countable resources to determine household's total countable resources

## Resource Deeming

The individuals whose resources are deemed is determined as part of the coverage type's household determination rules.

1. If the individual is the spouse of an eligible non parent caretaker relative, carry out Spouse to Spouse Deeming
2. If the individual is a parent who is not included in the assistance unit for LIFC, carry out Parent to Child Deeming
3. If the individual is a sponsor, carry out sponsor to alien deeming

### Resource Deeming Exception

Resources from a Supplemental Security Income (SSI) recipient are never deemed.

### Spouse to Spouse Deeming

1. Calculate countable resources for the ineligible spouse AND
2. Deem the ineligible spouse's total countable resources to the eligible individual

### Parent to Child Deeming

1. Calculate countable resources for the parent(s) AND

### Sponsor to Alien Deeming

The sponsor definition and sponsor deeming exception rules in Common Rules - Alien Sponsor chapter must be applied first when deeming resources from a sponsor to an alien.

For each sponsor, determine the resources to be deemed to the alien as follows:

- If the sponsor does not have a spouse living in the home:
  - Calculate countable resources for the sponsor AND
  - Compare the total countable resources to the resource limit for an individual AND
  - Deem the value of resources in excess of the resource limit to the alien
- If the sponsor has a spouse living in the home:
  - Calculate countable resources for the sponsor and his/her spouse AND
  - Combine their countable resources and compare to the resource limit for a couple AND
  - Deem the value of resources in excess of the resource limit to the alien

## Family - Common Income Rules

---

### Introduction

Income rules are used to determine the unearned, earned and self employment income that are countable/non countable for the household. This chapter contains the common steps to calculate income for family coverage types. Rules that are specific to a coverage type (such as income limits) are found in the coverage type chapter.

### Total Countable Income

For every individual in the financial unit whose income is counted, carry out the following steps:

1. Calculate individual's countable gross unearned income from all sources
2. Add deemable income, if any, to the individual's unearned income. (See Income Deeming below)

3. Add individual's countable gross unearned income to other household member's countable gross unearned income.
4. Calculate the individual's countable gross earned income from all sources including income from self employment.
5. Add individual's countable gross earned income to other household member's countable gross earned income.
6. If a gross income test is applicable then combine the household's total gross unearned income and the total gross earned income to determine the household's total gross income. (Gross income test only applicable to LIFC.)
7. Apply income deductions to individual's gross income. (See Income Deductions below)
8. Add individual's total countable net income to other household member's countable net income after deductions to get the household's net countable income.

## **Income Deeming**

The individuals whose income is deemed is determined as part of the coverage type's household determination rules.

1. Total the deemor's countable gross unearned income from all sources
2. Total the deemor's countable gross earned income from all sources including income from self employment OR
3. If the individual is the spouse of an eligible non parent caretaker relative, carry out Spouse to Spouse Deeming OR
4. If the individual is a parent who is not included in the assistance unit, carry out Parent to Child Deeming
5. If the individual is a sponsor, carry out sponsor to alien deeming

### **Income Deeming Exceptions**

1. Income from a Supplemental Security Income (SSI) recipient are never deemed.
2. Deeming does not apply in situations where a family does not have a residence.

The following deeming exceptions are in addition to any income which is excluded under the general income rules.

1. Do not deem from an individual income from payments resulting from the Refugee Act of 1980
2. Tribal Payments from general assistance programs of the Bureau of Indian Affairs
3. Exclude any income used by an ineligible person to make child or spousal support payments under a court order
4. Veteran's Administration Pension
5. Veteran's Administration Compensation paid to the parent of a child
6. ISM received by a deemor is not deemed to the Medical Assistance individual

### **Spouse to Spouse Deeming**

From the Spouse's gross countable earned income:

1. Deduct up to \$90 Work Allowance per month from the employed persons earned income AND
2. Add the countable unearned income AND
3. Subtract an amount equal to 100% Standard of Need for the number of ineligible individuals, living in the home, not including the eligible spouse AND
4. Subtract any child support or alimony actually paid by the spouse to individuals not living in the home AND
5. The remaining amount, if any, is deemed as unearned income to the spouse

### **Parent to Child Deeming**

From the parent(s) gross countable earned income:

1. Deduct up to \$90 Work Allowance per month from the gross countable earned income of each parent AND
2. Add the countable unearned income for each parent AND
3. Subtract an amount equal to 100% Standard of Need for the number of ineligible individuals living in the home, including the parents (but not including the minor parent) AND
4. Subtract any child support or alimony actually paid by each parent to individuals not living in the home AND
5. The remaining amount, if any, is deemed as unearned income to the child (who might be a minor parent)

### **Sponsor to Alien Deeming**

The sponsor definition and sponsor deeming exception rules in Common Rules - Alien Sponsor chapter must be applied first when deeming income from a sponsor to an alien.

Carry out the following process if no sponsorship deeming exceptions apply.

1. For each sponsor, determine the amount of money to be deemed to the alien
2. From the sponsor's and their live in spouse (if any) countable earned income:
  - a. Deduct the \$90 Work Allowance AND
  - b. Add the gross countable unearned income AND
  - c. Subtract an amount equal to 100% Standard of Need for the number of ineligible individuals, living in the sponsor's home AND
  - d. The remaining amount, if any, is deemed as unearned income to the alien

### **Income Deductions**

For every individual in the financial unit whose income is counted, deductions may be applied. Apply disregards in the following order for each employed/self employed individual in the household

1. Deduct the \$90 Work Allowance (all Family coverage types)
  - Deduct up to \$90 per month from the employed persons earned income
2. Deduct the \$30 and 1/3 Disregard (LIFC only)
  - a. The employed person has not received the \$30 and 1/3 disregard in 4 consecutive months in the last 12 months AND
  - b. Deduct the first \$30 and 1/3 of the remainder from the employed person's income
3. Deduct the \$30 Disregard (LIFC only)
  - a. The employed person has received the 4 consecutive months of the \$30 and 1/3 disregard AND
  - b. Deduct the first \$30 from the employed persons income AND
  - c. This disregard applies for 8 consecutive months AND
  - d. Count all months including months that the person does not receive Medical Assistance or does not have earnings in determining the 8 consecutive months
4. Deduct the Dependent Care Allowance (all Family coverage types)
  - Deduct the monthly amount paid for the care of each dependent child or incapacitated adult up to the maximum defined based on age of dependent and hours of work if:
    - Child or incapacitated adult is an eligible member of the assistance unit AND
    - Actual cost of child care is not reimbursed AND
    - The care is necessary for employment

Apply the following disregard to each individual's remaining total income (any earned plus any unearned):

- Deduct child support/alimony payments (all Family coverage types)
  - Reduce income by the verified amount paid for dependents not living in the home

## Adult - Common Resource Rules

---

### Introduction

Resource rules are used to calculate the household's total countable resources. Total countable resources include resources deemed to the household. This chapter contains the common steps to calculate resources for adult coverage types. Rules that are specific to a coverage type (such as resource limits) are found in the coverage type chapter.

### Total Countable Resources

The following are the steps to be undertaken when determining the total countable resources for ABD and other adult coverage types:

The financial unit will consist of one of the following:

1. Eligible individual with no spouse
2. Eligible child
3. Eligible individual and ineligible spouse
4. Eligible couple

#### Eligible Individual with no spouse

#### Eligible Child

1. Calculate eligible child's countable resources AND
2. If the eligible child is a sponsored alien, carry out sponsor to alien deeming and add total deemed resources, if any, to the eligible child's total countable resources AND
3. If parent(s) are living with the eligible child, carry out parent to child deeming and add total deemed resources from the parent(s), if any, to the individual's total countable resources to determine the total countable resources for the eligible child

5. Combine the countable resources for the eligible individual and the eligible spouse

## **Resource Deeming**

The individuals whose resources are deemed is determined as part of the coverage type's household determination rules.

1. If the individual is the spouse who is not included in the assistance unit, carry out Spouse to Spouse Deeming
2. If the individual is a parent who is not included in the assistance unit, carry out Parent to Child Deeming
3. If the individual is a sponsor, carry out sponsor to alien deeming

### **Resource Deeming Exception**

Resources from a Supplemental Security Income (SSI) recipient are never deemed.

Deeming does not apply in situations where a family does not have a residence.

The following resources cannot be deemed during resource deeming:

The following resources cannot be deemed during Medicare Cost Sharing coverage type resource deeming:

1. A pension fund is not counted as a resource in the deeming process if it is owned by:
  - An ineligible spouse OR

    2. Determine the amount in excess of the Couple resource limit AND
    3. Determine the number of potential blind/disabled children in the household AND

4. Divide the value of the resources among all blind/disabled children equally to determine the amount to be deemed to the eligible child

### **Sponsor to Alien Deeming**

The sponsor definition and sponsor deeming exception rules in Common Rules - Alien Sponsor chapter must be applied first when deeming resources from a sponsor to an alien.

For each sponsor, determine the resources to be deemed to the alien as follows:

If the sponsor does not have a spouse living in the home:

- Calculate countable resources for the sponsor AND
- Compare the total countable resources to the resource limit for an individual AND
- Deem the value of resources in excess of the resource limit to the alien

If the sponsor has a spouse living in the home:

- Calculate countable resources for the sponsor and his/her spouse AND
- Combine their countable resources and compare to the resource limit for a couple AND
- Calculate the amount of resources in excess of the resource limit to the alien

Total all deemable amounts to determine the amount to be deemed to the alien.

10. If the parents have more than 1 eligible child under age 18 in the household, divide the parental income equally among the eligible children.

### **Sponsor to Alien Deeming**

1. The sponsor definition and sponsor deeming exception rules in Common Rules - Alien Sponsor chapter must be applied first when deeming income from a sponsor to an alien.
2. Carry out the following process if no Sponsorship Deeming exceptions apply:
  - For each sponsor, determine the amount of money to be deemed to the alien:
    - Combine the total gross countable earned and unearned income of the alien sponsor and spouse, if any, living in the home with the sponsor AND
    - Exclude from the total income the maximum allocation for a sponsor AND
    - If the sponsor has a spouse and if the spouse is also a sponsor for the alien, exclude the maximum allocation for a sponsor for the spouse OR
    - If the spouse is also a sponsor for the alien, exclude the maximum allocation for a sponsor for the spouse OR
    - If the spouse is not a sponsor and the spouse is not receiving payments from any of the following exclude from the total income the allocation for a spouse:

- a. Determine child's countable income
  - b. Subtract the child's countable income from the maximum allocation amount
  - c. The remainder is the amount to be allocated for the child

### **Sponsor's Deemed Income**

An eligible alien's income will consist of deemed income from a sponsor in addition to their own income. Follow these steps to determine how much should be deemed to the alien from a sponsor:

1. Determine value of the sponsor's and spouse's, if any, In-kind Support and Maintenance
2. Total the sponsor's and spouse's, if any, countable gross unearned income from all other sources add the value of any In-kind Support and Maintenance (determined above)

5. Add the total deemable income, if any, of the sponsor(s) to the eligible alien's unearned income

The above steps are repeated for each of the alien's sponsors.

## **Income Deductions**

For every individual in the financial unit whose income is counted, deductions may be applied. Apply disregards in the following order for each employed/self employed individual in the household.

Deductions are applied for as long as there is available income. If there is no available income from which a deduction can be made all income is excluded.

### **Unearned Income Deductions**

If dealing with an eligible couple whose income is combined, combine the unearned income before applying the Unearned Income Deductions. Similarly, if counting the income of parents of a child (for deeming purposes), combine the parents unearned income before applying the Unearned Income Deductions.

Unearned Income Deductions are as follows:

#### ***\$20 General Income Disregard***

The \$20 General Income Disregard is applied unless the type of Unearned Income is one where an exception applies:

1. Deduct a \$20 General Income Disregard from unearned income for the individual where the income type is not any of the types listed in the Exceptions to the \$20 Disregard sub rule group OR
2. Deduct \$20 from the combined unearned income for a married couple where the income type is not any of the types listed in the Exceptions to the \$20 Disregard sub rule group

Do not deduct \$20 General Disregard from the following types of Unearned Income:

1. Tribal General Assistance payments made by BIA
2. Income from payments resulting from the Refugee Act of 1980
3. Veteran's Administration Pension

4. Veteran's Administration Compensation paid to the parent of a child

### **Earned Income Deductions**

If dealing with an eligible couple whose income is combined, combine the earned income before applying the Earned Income Deductions. Similarly, if counting the income of parents of a child (for deeming purposes), combine the parents earned income before applying the Earned Income Deductions.

Earned Income Deductions are as follows:

#### ***\$20 General Income Disregard***

- Deduct the balance of the \$20 general income disregard remaining, if any, after allowing this deduction from unearned income

#### ***Loss from a Self-Employment Business***

1. Individual is self-employed AND
2. Individual's business is losing money AND
3. Determine the amount of the loss from the self-employment business AND

#### ***\$65 deduction***

- Deduct \$65 from the remaining earned income

#### ***Impairment-Related Work Expenses (IRWE)***

1. Deduct monthly expenses the client pays for services and items related to the individual's disability when those expenses are necessary for the individual to work AND
2. These expenses are not covered by Medical Assistance or any third party

Examples of these work expenses:

1. Transportation for a disabled client who cannot use public transportation because of his impairment
2. Medications not covered by Medical Assistance or any third party
3. Wheelchairs
4. Respirators
5. Braces
6. Typing Aids
7. Telecommunications Devices for the Deaf

- Deduct one half of the earned income that remains

## **LIFC Medical Assistance**

---

### **Introduction**

Low Income Families with Children Medical Assistance is an eligibility category that provides Medical Assistance to both adults and dependent children in the household. Low Income Families with Children (LIFC) is a covered group of individuals in families who have a dependent, deprived child(ren) living in the home, and whose income and resources are within the program defined limits.

The following rules must be satisfied:

- The household members must satisfy the Non Financial Requirements
- The household must satisfy the Household Composition Rules or the Household Composition - Special Household Circumstances AND
- The household satisfies the Household Determination rules AND
- The household must satisfy the Resource Test AND
- The household must satisfy the Income Test

## **Non Financial Requirements**

See Non Financial Requirements in the Common Rules - Non Financial Requirements chapter.

## **Household Composition**

The LIFC coverage type rules determine all potentially eligible LIFC assistance units in the household. The assistance units are formed around the dependent child and will then include all individuals based on the mandatory household member rules and exceptions. This also includes an unborn child for a pregnant household member in her last trimester of pregnancy.

- Household composition rules are used to form the assistance unit and determine the household members that are included in the unit.
- The dependent child rules determine if a child is considered a dependent child.
- Household determination rules determine the household members that are not included or excluded from the assistance unit.

This rule group determines the mandatory and optional household members in an assistance unit. If a household member is determined mandatory they will be included in the assistance unit. If a household member is determined to be an optional member they may be included in the assistance unit. An assistance unit will be formed with and without the optional household member.

### **Mandatory Household Member**

Mandatory household members of an assistance unit for Medical Assistance coverage are determined by the Mandatory Household Member rules. Mandatory Household Member Exception rules define when members who would normally be mandatory members, but in certain exceptions may be optional members. These rules also define when other members of the household must be considered as mandatory members of a unit as a result of the inclusion of specific optional members in a unit.

The following household members, who live in the home, must be included for Medical Assistance coverage, their income and resources are counted and they are included in the household size:

1. Dependent child who meets the Dependent Child rules AND
2. Natural or adoptive parent(s) of the dependent child AND
3. Blood-related or adoptive siblings who satisfy the Dependent Child rules

See Dependent Child rules in Common Rules - Dependent Child chapter.

### **Parent Exception**

1. A non-SSI disabled parent in receipt of Social Security Disability benefits AND
2. Regardless of whether or not they choose to be included under Low Income Families with Children Medical Assistance, their income and resources are counted and they are included in the household size

### **Minor Parent living with Parent(s)/NPCR Exception**

A minor parent and their dependent minor child are eligible for Medical Assistance coverage. If the Minor Parent living with Parent(s)/NPCR Exceptions are satisfied the minor parent and minor child will form an assistance unit with and without the minor parent's parents. ## Transitional LIFC Medical Assistance Rules

---

### Introduction

Transitional Medical Assistance is designed to encourage households to take advantage of better employment opportunities, even when it means the household will make too much money to qualify for LIFC. When a household loses LIFC because the earnings of a specified relative have increased, the household may qualify for extended medical assistance eligibility for up to 12 months. The purpose of this extended medical assistance is to ease the "transition" from welfare to work.

### Transitional Medical Assistance Eligibility Determination

To be eligible for Transitional Medical Assistance:

1. Household must have been both eligible for and in receipt of Low Income Families with Children Medical Assistance coverage in any 3 of the 6 months immediately preceding the month in which the household became ineligible for Low Income Families with Children Medical Assistance AND
2. Household lost eligibility for Low Income Families with Children Medical Assistance for one of the following reasons:
  - Household must have lost Low Income Families with Children Medical Assistance wholly or partly due to increased earnings of a Caretaker Relative OR
  - Any household member (including a dependent child) is no longer eligible for the time limited \$30 and 1/3 income disregard or \$30 disregard and this causes the countable income to exceed the limit for Low Income Families with Children Medical Assistance.

### **LIFC - Reason for Ineligibility**

1. Where Low Income Families with Children Medical Assistance ineligibility is caused solely by new or increased earnings of a Caretaker Relative, the household is eligible for Transitional Medical Assistance OR
2. Where Low Income Families with Children Medical Assistance ineligibility is as a result of an increase in earnings of a Caretaker Relative and a concurrent change in unearned income AND
  - If the increase in earnings would have resulted in the loss of Low Income Families with Children Medical Assistance eligibility if all other factors remained the same, household is eligible for Transitional Medical Assistance OR
  - When two factors of eligibility change, one of which is increased earnings, and either one could cause ineligibility, the household is eligible for Transitional Medical Assistance OR
3. Where Low Income Families with Children Medical Assistance ineligibility is as a result of an increase in earnings of a Caretaker Relative and a concurrent change in unearned income AND
  - If other factors in the case change that do not, when considered individually, result in loss of Low Income Families with Children Medical Assistance eligibility, but when combined with increased earnings do cause loss of eligibility, the household is eligible for Transitional Medical Assistance benefits

### **Household Composition**

All household members who were covered under Low Income Families with Children Medical Assistance at the time of closing Low Income Families with Children Medical Assistance are eligible for coverage.

### ***New Household Members***

Anyone who moves into the home after Transitional Medical Assistance has started as long as that person would have been covered under Low Income Families with Children if the family were applying in the current month

### ***Remove Household Members***

If a household member leaves the home after Transitional Medical Assistance has started they are no longer eligible for Transitional Medical Assistance

## **Transitional Medical Assistance Eligibility Period**

- Transitional Medical Assistance coverage lasts for up to 12 months, divided into two six-month periods. To receive the entire 12 months of coverage, the eligible group must meet all eligibility criteria for each six-month period AND
- A household is eligible to receive Transitional Medical Assistance for 12 months, beginning with the first month following the last month of Low Income Families with Children Medical Assistance

### ***Loss of Residency***

If the family move out of state during the initial 6 month period eligibility ends.

### ***Resume Residency***

The family may resume eligibility under the first 6 month Transitional Medical Assistance period if they return to the state and the first 6 month Transitional Medical Assistance period has not expired.

To remain eligible for the second 6 months of Transitional Medical Assistance:

- Household must have received Transitional Medical Assistance benefits throughout the first 6 month period AND
- Household must continue to contain at least one dependent child during the second 6-month period AND

- Household must have met the reporting requirements unless good cause exists AND
- The Caretaker Relative's average gross earned income minus the Dependent Care expenses for the second and third report periods must not exceed 185% of the Federal Poverty Level for the household size AND
- A specified Caretaker Relative must have earnings in each of the three months in the 3 report periods or have good cause for no earnings

### ***Good Cause for No Earnings***

The following reasons constitute good cause for no earnings:

- Involuntary loss of employment OR
- The employed person or a family member was ill OR
- A death in the family OR
- Loss of transportation OR
- Harassment OR

- For the first report period, the only requirement is that a caretaker relative must have had earnings or good cause for no earnings in the first three months of the 12 month period. If the caretaker relative did not receive earnings in one or more of the first 3 months, the household must report this information by the <21st> of the 4 month.
- If the household reports that the Caretaker Relative did not have earnings in one or more of the first 3 months and good cause exists, eligibility for Transitional Medical Assistance continues
- If the household reports that the Caretaker Relative did not have earnings in one or more of the first 3 months and good cause does not exist, eligibility ends after 6 months of Transitional Medical Assistance

### **Second and Third Reports**

- The household must report the earnings of the caretaker relative, the family's gross monthly earnings, and the costs for dependent care necessary for the employment of the caretaker relative (1) by the 21st day of the 7 month for each of months 4, 5, and 6, and (2) by the 21st day of the 10 month for each of months 7, 8, and 9.
- Household is ineligible for 12 Month Transitional Medical Assistance at the end of the report month (i.e. end of the 7th month and end of 10th month) if:

- The household did not provide the information needed and the information was not otherwise available OR
- The caretaker relative did not have earnings and did not have good cause for no earnings in one or more of the 3 report months OR
- The averaged earned income minus the averaged Dependent Care expenses for the 3 report months exceeds 185% of the poverty level for the household size.
- If the household provided all necessary information and the household meets all of the eligibility requirements for the program, the household is eligible for continued coverage under 12 Month Transitional Medical Assistance

Good cause for failing to meet reporting requirements exists if:

- There was a serious illness or death of the recipient or a member of the recipient's family OR
- There was a family emergency or household disaster, such as a fire, flood or tornado OR
- There were other reasons beyond the recipients control for not returning the report OR
- The household did not receive the form for a reason that was not the recipients fault

### **Reinstatement of Transitional Medical Assistance**

- A household who again becomes eligible for LIFC during their transitional benefit period stops receiving Transitional Medical Assistance however the clock on the transitional benefit period continues to run AND
- If the household subsequently loses LIFC, they may be eligible for either:
  - A new transitional benefit period, if they meet the all of the conditions for Transitional Medical Assistance eligibility OR
  - The time remaining of the original Transitional Medical Assistance period.

## **Extended LIFC Medical Assistance Rules**

  - When two types of unearned income change, one of which is increased child/spousal support, and either one could cause ineligibility, the household is eligible for four month extended Medical Assistance OR
3. Where Low Income Families with Children Medical Assistance ineligibility is as a result of an increase in child/spousal support and a concurrent change in unearned income AND
  - The increase in child/spousal support contributes to ineligibility but does not itself cause ineligibility AND
  - If other unearned income factors in the case change that do not, when considered individually, result in loss of Low Income Families with Children Medical Assistance eligibility, but when combined with increased child/spousal support payments do cause loss of eligibility, the household is eligible for four month extended Medical Assistance.

## Retroactive Medical Assistance

---

### Introduction

When an application is made for medical assistance, the applicant is entitled to request retroactive medical assistance coverage, for all programs offering retroactive coverage, for a retroactive period prior to their initial application date. An applicant will request retroactive medical assistance coverage if an outstanding or pending medical expense, arising in the retroactive period, exists. Retroactive medical assistance may be requested with an initial medical assistance application or subsequently at a later point in time.

When retroactive eligibility is requested with the initial medical assistance application, it is not necessary for an applicant to have been determined eligible, in the month of application, for prospective medical assistance coverage in order to receive retroactive coverage. When retroactive medical assistance is requested at a date later than an initial application date, the applicant must have been determined eligible for, and have received medical assistance coverage following the initial application. Thus subsequent applications for retroactive eligibility can only be requested for the retroactive periods of existing product deliveries.

It is a prerequisite for retroactive medical assistance that all required evidence has been recorded for the requested retroactive period.

### Retroactive Period

The retroactive period is the 3 month period immediately prior to the month in which the application for medical assistance was made. The retroactive period starts on a date in the 3rd month prior to the month in which the application for medical assistance was made. The retroactive period ends on the last day of the month immediately prior to the medical assistance application month.

For example, if a medical assistance application is filed in July, the retroactive period will start in April and end on the last day of June.

In the retroactive period:

- Eligibility is determined individually for each retroactive month.
- The business requirement for the coverage type must be satisfied as well as the retroactive requirements. The individual/household must have incurred a valid medical expense within each retroactive month to be determined eligible.
- Medical Assistance coverage is available for one or more retroactive months.

For example, if a medical assistance application is filed in July, the retroactive period is April to June. An applicant is eligible to receive coverage in any or all of the months April, May and June in which they are found eligible.

### Retroactive Period Start Date

The retroactive period start date in the 3rd retroactive month varies. In some states it is dependent on the date of application in the application month, and in others it starts from the 1st day in the 3rd retro month (configured option). A system variable is defined which when set defines which retro period start date option is used ('retroPeriodStartsOnFirstDayOfMonth').

**Check Retroactive Eligibility**

The retroactive medical assistance check can be triggered from the application or the integrated case post application. If requested from the integrated case, the user can view all the potential retroactive periods for which retroactive eligibility can be requested and select the required period.

The system then checks retroactive eligibility for all household members, for all programs in each of the selected retroactive months. The system checks for eligibility for all programs with the exception of CHIP and QMB.
