

V10.4.1 UPDATES

Merge Hemo

Merge Hemo

Merge Hemo™, a KLAS Category Leader for Hemodynamics for over a decade, and Best in KLAS for 2023, simplifies data collection by mimicking your existing workflow. The intuitive touch screen and flexible interface facilitate the rapid documentation of study data, making your cath lab more streamlined, efficient, and cost-effective.

Merative delivers a comprehensive and intuitive solution to support your entire cath lab allowing for more accurate and streamlined data capture.

What's New for Hemo 10.4:

Improved user experience and support with enhanced security for the latest operating systems

- Addresses Chron Log medication units, Lab Field displays, and ADT message processing
- Real-time data—Replication scheduler runs at least every 5 minutes, 24 hours a day
- Increased browser support for Microsoft Edge for web applications such as Dry Erase or Family Wait boards
- User authentication via domain accounts
- SQL Database upgrades and location specificity
- Increased Security with SSL encryption mandates
- Server Software additions

With your hemo upgrade, you will experience:

A comprehensive hemodynamic solution that increases your clinical workflow efficiency and streamlines data capture.

Tools to help you reduce time spent populating and developing reports, and limiting mistakes and discrepancies that can help increase report accuracy.

Leverage cost savings and improved access to patient data with a single server that supports multiple facilities and departments.

Seamless integration between Merge Cardio™ and Merge Hemo, helping you efficiently create a comprehensive patient cardiac record.
