DynaMed + Micromedex
Two award-winning solutions in one

DynaMedex seamlessly combines two sources of extensive, evidence-based clinical information — disease and condition information from DynaMed® and drug and interaction insights from Micromedex® — to create an all-in-one solution for an optimal clinician experience. Both DynaMed (2021, 2022, 2024, 2025) and Micromedex (2023) have been awarded Best in KLAS for clinical decision support: point-of-care clinical reference. With DynaMedex, clinicians from across the care team have streamlined access to industry-leading decision support information to help improve patient outcomes.

Why DynaMedex?

Supports confident evidence-based decision-making

DynaMedex provides clinicians with comprehensive disease and medication content, curated using rigorous evidence-based editorial principles. Designed to facilitate clinical decision-making at the point of care, the solution combines clinical evidence and guidance from accredited experts to help give clinicians confidence in their decision-making.

Designed with ease-of-use in mind

With intuitive personalization features, natural language drug search capabilities, streamlined EHR integration and a robust mobile experience — all built on the latest cloud-based technology — DynaMedex makes it easy for clinicians to access the content they need when, where and how they need it.

Single, comprehensive solution

The DynaMedex suite of content and tools provides comprehensive coverage for the entire care team with current, high-quality, and actionable evidence-based drug and disease content.
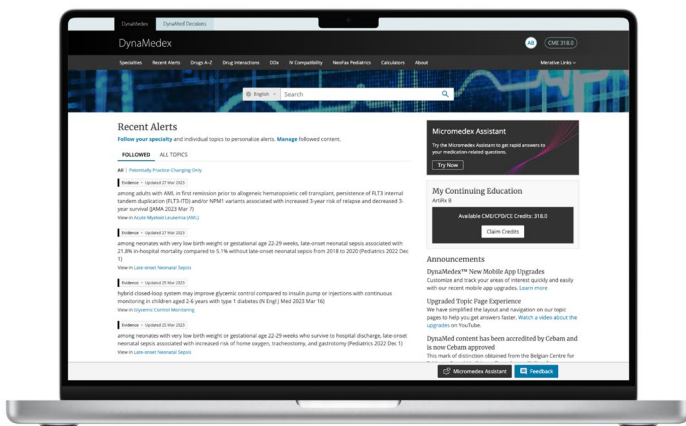

Cost-efficient solution to support a value-based care model
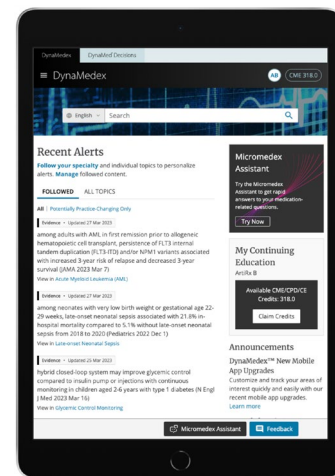

DynaMedex offers a streamlined buying process which may help reduce the total cost of ownership using a single solution suite, available at one price, via one contract and invoice.
