

Get to know DynaMedex

DynaMedex® is the all-in-one resource for evidence-based clinical information, bringing together drug and interaction insights from Micromedex® and disease and condition information from DynaMed®, supporting the whole care team with medication safety and patient care.

The value of Micromedex

Confidence

Micromedex provides clinicians with the confidence they need to support their treatment decisions:

- A rigorous editorial process accredited by the National Institute of Health and Care Excellence
- Compendium status recognized by the U.S. Centers for Medicare and Medicaid Services (CMS)
- Consistent coverage of off-label and therapeutic uses
- In-line referencing and supporting studies for transparency
- Ratings on efficacy, strength of recommendation and strength of evidence

Ease of use

Micromedex supports fast access to trusted information when and where clinicians need it:

- Powerful search technology that speeds time from question to answer
- Quick answers sections for speedy results
- Single Sign-On (SSO) to save time
- EHR integration for enhanced workflow efficiency
- Mobile options which support offline use

Comprehensive content

The in-depth, high-quality content in Micromedex helps clinicians support patient safety and even for the most complex patient cases:

- 2,500+ drug reference monographs that offer current, evidence-based information about medications
- Includes off-label indications, comprehensive, trusted adult, pediatric, and neonatal drug information
- Tools to support patient safety, such as IV compatibility, drug interactions, drug identification, drug comparison, and a suite of 650+ clinical calculators
- Fully referenced, evidence-based articles called Drug Consults that cover a wide range of topics on drug therapies and treatment guidelines.

Transparency

Micromedex distinguishes recommendations based on evidence, published guidelines, or when necessary, expert opinion, with one-click access to full text resources
